RACER MERCHANDISERS

INTENDED FOR OTHER THAN HOUSEHOLD USE

RETAIN THIS MANUAL FOR FUTURE REFERENCE
UNIT MUST BE KEPT CLEAR OF COMBUSTIBLES AT ALL TIMES

FOR YOUR SAFETY: Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance.

WARNING: Improper installation, adjustment, alteration, service or maintenance can cause property damage, injury or death. Read the Installation, Operating and Maintenance Instructions thoroughly before installing or servicing this equipment.

Initial heating of appliance may generate smoke or fumes and must be done in a well ventilated area. Overexposure to smoke or fumes may cause nausea or dizziness.

This equipment has been engineered to provide you with year-round dependable service when used according to the instructions in this manual and standard commercial kitchen practices.

APW WYOTT
1938 Wyott Drive
Cheyenne, WY 82007

APW Wyott takes pride in the design and quality of our products. When used as intended and with proper care and maintenance, you will experience years of reliable operation from this equipment. To ensure best results, it is important that you read and follow the instructions in this manual carefully.
Installation and start-up should be performed by a qualified installer who thoroughly read, understands and follows these instruction.
If you have questions concerning the installation, operation, maintenance or service of this product, contact APW Wyott Foodservice Equipment Company's " Technical Service Department".

SAFETY PRECAUTIONS

Before installing and operating this equipment be sure everyone involved in its operation are fully trained and are aware of all precautions. Accidents and problems can result by a failure to follow fundamental rules and precautions.

The following words and symbols, found in this manual, alert you to hazards to the operator, service personnel or the equipment. The words are defined as follows:

DANGER: This symbol warns of imminent hazard which will result in serious injury or death.

WARNING: This symbol refers to a potential hazard or unsafe practice, which could result in serious injury or death.

CAUTION: This symbol refers to a potential hazard or unsafe practice, which may result in minor or moderate injury or product or property damage.

NOTICE: This symbol refers to information that needs special attention or must be fully understood even though not dangerous.

IMPORTANT FOR FUTURE REFERENCE: Please complete this information and retain this manual for the life of the equipment. For Warranty Service and/or Parts, this information is required.

1. IMPORTANT SAFETY INSTRUCTIONS

IMPORTANT: Read the following important safety instructions to avoid personal injury or death, and to avoid damage to the equipment or property.

WARNING: Plug unit into a properly grounded electrical outlet of the correct voltage, size and plug configuration. If the plug and receptacle do not match, contact a qualified electrician to determine the proper voltage and size and install the proper electrical outlet.

WARNING: Unit is not waterproof. DO NOT submerge in water. Do not operate if it has been submerged in water.

WARNING: To avoid any injury, turn the power switch off at the fuse disconnect switch/circuit breaker or unplug the unit from the power source and allow to cool completely before performing any maintenance or cleaning.

WARNING: To avoid electrical shock, always unplug the unit before performing cleaning or maintenance.

WARNING: Do not place food product directly onto hardcoat surface. Food product must be wrapped, boxed or on a food pan.

WARNING: To avoid electrical shock or personal injury, do not steam clean or use excessive water on the unit.

WARNING: Only light bulbs which meet or exceed N.S.F. Standards, specifically designed for food holding areas must be used. Breakage of light bulbs not specially coated could result in personal injury and/or food contamination.

WARNING: If service is required on this unit, contact your authorized APW Wyott Service Agent, or contact the APW Wyott Service Department directly at (214) 421-7366 or (800) 527-2100; fax (214) 565-0976.

WARNING: This product has no “user” serviceable parts. To avoid damage to the unit or injury to personnel, use only Authorized APW Wyott Service Agents and genuine APW Wyott Parts when service is required..

WARNING: Genuine APW Wyott Replacement Parts are specified to operate safely in the environments in which they are used. Some aftermarket or generic replacement parts do not have the characteristics that will allow them to operate safely in APW Wyott equipment. It is essential to use APW Wyott Replacement Parts when repairing APW Wyott equipment. Failure to use APW Wyott Replacement Parts may subject operators of the equipment to hazardous electrical voltage, resulting in electrical shock or burn.

CAUTION: Some exterior surfaces on the unit will get hot. Use caution when touching these areas to avoid injury.

CAUTION: Locate the unit at the proper counter height, in an area that is convenient for use. The location should be level to prevent the unit or it’s contents from accidentally falling, and strong enough to support the weight of the unit and food.

CAUTION: The National Sanitation Foundation (NSF) requires that units over 36” (91 cm) in length or weighing more than 80 lbs. (36 kg) to be either sealed or raised on the installation surface. If this unit cannot be sealed at the point of use, 4” (10 cm) legs are included to allow for proper cleaning access below unit.

CAUTION: Use only non-abrasive cleaners. Abrasive cleaners could scratch the finish of your unit, marring it’s appearance and making it susceptible to dirt accumulation.

CAUTION: Only soft cleaning cloths should be used to clean breath protector(s). Breath protector(s) are made of shatterproof polycarbonate and will scratch if proper care is not taken.

2. INSTALLATION

ALL MODELS

All APW/Wyott Racer Merchandisers are shipped with most components pre-assembled. Care should be taken when unpacking shipping carton to avoid damage to unit and components enclosed.

1. Remove unit from box.
2. Remove information packet.
3. Remove tape and protective packaging from all surfaces of unit.
4. The unit is supplied with product divider bars. To install them, simply place the bars in the channels provided. The bars can be readily adjusted to separate your holding areas as needed.

LOCATION

NOTE: *The unit must be transported in the upright position.*

For proper operation and maximum performance, locate the Racer Merchandiser in an area where the ambient air temperature is constant and is a minimum of 70°F (21°C). Areas which are susceptible to active air movements or currents should be avoided, i.e. near exhaust fans or hoods and air conditioning ducts.

The data plate for the unit is located on the bottom of the unit near the power cord. Check the voltage requirements on the data plate. Connect the unit only the the voltage configuration specified on the data plate.

CAUTION: Locate the unit at the proper counter height, in an area that is convenient for use. The location should be level to prevent the unit or it's contents from accidentally falling, and strong enough to support the weight of the unit and food.

CAUTION: The National Sanitation Foundation (NSF) requires that units over 36" (91 cm) in length or weighing more than 80 lbs. (36 kg) to be either sealed or raised on the installation surface. If this unit cannot be sealed at the point of use, 4" (10 cm) legs are included to allow for proper cleaning access below unit.

3. OPERATION

The Racer Merchandiser's power is controlled by the ON/OFF toggle switch. For units with two shelves there are two toggle switches, one for each shelf. You can power the shelves independently.The switch must be on the ON position for the unit to function.

The thermostatically controlled base and rear overhead element can be set to any desired heating level as indicated on the control plate.

NOTE: *Main power switch must be in the ON position for the heated base to function.*

CE Provision for Earthing

Provision for Earthing is located at the rear of the unit. It is designated by this symbol and provides means of earthing terminals to be properly secured to the frame of the unit. Earthing terminals shall not be connected to the neutral terminal. External bonding conductors connected to earthing terminals shall be 2.5 mm^2 to 6 mm^2 in diameter.

CAUTION: Some exterior surfaces on the unit will get hot. Use caution when touching these areas to avoid injury.

WARNING: Do not place food product directly onto hardcoat surface. Food product must be wrapped, boxed or on a food pan.

The Model Numbers And What They Mean:

DMX is just the model name. The "S" or the "D" after the DMX stands for Single shelf or Double shelf. The number after the first part of the model number is the complete width of the countertop area. The (H) after the number stands for Horizontal units. The (S) after the number stands for Slanted units.

5. MAINTENANCE

GENERAL

The APW/Wyott Racer Merchandisers are designed for maximum durability and performance, with minimum maintenance.

WARNING: To avoid any injury, turn the power switch off at the fuse disconnect switch/circuit breaker or unplug the unit from the power source and allow to cool completely before performing any maintenance or cleaning.

WARNING: To avoid electrical shock or personal injury, do not steam clean or use excessive water on the unit.

WARNING: Unit is not waterproof. DO NOT submerge in water. Do not operate if it has been submerged in water. Do not clean the unit with a water jet.

WARNING: To avoid electrical shock, always unplug the unit before performing cleaning or maintenance.

CLEANING

To preserve the bright finish of the Racer Merchandiser, it is recommended that the exterior and interior surfaces be wiped daily with a damp cloth. Stubborn stains may be removed with a good non-abrasive cleanser. Hard to reach areas should be cleaned with a small brush and mild soap.

CAUTION: Use only non-abrasive cleaners. Abrasive cleaners could scratch the finish of your unit, marring it's appearance and making it susceptible to dirt accumulation. Do Not use steel wool, other abrasive cleaners or cleaners/sanitizers containing chlorine, iodine, ammonia or bromine chemicals as these will deteriorate the stainless steel and glass material and shorten the life of the unit.

CAUTION: Do not use a water jet (pressure sprayer) to clean the unit, or component failure could result.

Clean the glass sides using a common glass cleaner.

DISPLAY LIGHT BULB REPLACEMENT

The display light is an incandescent light bulb which illuminates the warming area. The bulb has a special coating to guard against injury and food contamination in the event of breakage.

1. To replace the light bulb, disconnect the power supply and wait until the unit has cooled.
2. Bulbs have a threaded base. Unscrew the light bulb from the unit and replace it with a new specially coated incandescent bulb.

NOTE: *APW Wyott shatter-resistant light bulbs meet N.S.F. Standards for food holding and display areas.*

WARNING: Only bulbs which meet or exceed N.S.F. Standards, specifically designed for food holding areas must be used. Breakage of bulbs not specially coated could result in personal injury and/or food contamination.

WARNING: If service is required on this unit, contact your authorized APW Wyott Service Agent, or contact the APW Wyott Service Department directly at (214) 421-7366 or (800) 527-2100; fax (214) 565-0976.

WARNING: This product has no "user" serviceable parts. To avoid damage to the unit or injury to personnel, use only Authorized APW Wyott Service Agents and genuine APW Wyott Parts when service is required..

WARNING: Genuine APW Wyott Replacement Parts are specified to operate safely in the environments in which they are used. Some aftermarket or generic replacement parts do not have the characteristics that will allow them to operate safely in APW Wyott equipment. It is essential to use APW Wyott Replacement Parts when repairing APW Wyott equipment. Failure to use APW Wyott Replacement Parts may subject operators of the equipment to hazardous electrical voltage, resulting in electrical shock or burn.

6. ACCESSORIES

STAINLESS STEEL DIVIDER RODS

Additional stainless steel divider rods help to keep product separate in the channels.

8. APW WYOTT EQUIPMENT LIMITED WARRANTY

APW Wyott Foodservice Equipment Company warrants it's equipment against defects in materials and workmanship, subject to the following conditions:

This warranty applies to the original owner only and is not assignable.

Should any product fail to function in its intended manner under normal use within the limits defined in this warranty, at the option of APW Wyott such product will be repaired or replaced by APW Wyott or its Authorized Service Agency. APW Wyott will only be responsible for charges incurred or service performed by its Authorized Service Agencies. The use of other than APW Wyott Authorized Service Agencies will void this warranty and APW Wyott will not be responsible for such work or any charges associated with same. The closest APW Wyott Authorized Service Agent must be used.

This warranty covers products shipped into the 48 contiguous United States, Hawaii, metropolitan areas of Alaska and Canada. There will be no labor coverage for equipment located on any island not connected by roadway to the mainland.

Warranty coverage on products used outside the 48 contiguous United States, Hawaii, and metropolitan areas of Alaska and Canada may vary. Contact the international APW Wyott distributor, dealer, or service agency for details.

Time Period
One year for parts and one year for labor, effective from the date of purchase by the original owner. The Authorized Service Agency may, at their option, require proof of purchase. Parts replaced under this warranty are warranted for the un-expired portion of the original product warranty only.

Exceptions

***Gas/Electric Cookline:** Models GCB, GCRB, GF, GGM, GGT, CHP-H, EF, EG, EHP. Three (3) Year Warranty on all component parts, except switches and thermostats. (2 additional years on parts only. No labor on second or third year.)

***Broiler Briquettes, Rock Grates, Cooking Grates, Burner Shields, Fireboxes:** 90 Day Material Only. No Labor.

***Heat Strips:** Models FD, FDL, FDD, FDDL. Two (2) Year Warranty on element only. No labor second year.

***Glass Windows, Doors, Seals, Rubber Seals, Light Bulbs:** 90 Day Material Only. No Labor.

In all cases, parts covered by extended warranty will be shipped FOB the factory after the first year.

Portable Carry In Products
Equipment weighing over 70 pounds or permanently installed will be serviced on-site as per the terms of this warranty. Equipment weighing 70 pounds or under, and which is not permanently installed, i.e. with cord and plug, is considered portable and is subject to the following warranty handling limitations. If portable equipment fails to operate in its intended manner on the first day of connection, or use, at APW Wyott's option or its Authorized Service Agency, it will be serviced on site or replaced.

From day two through the conclusion of this warranty period, portable units must be taken to or sent prepaid to the APW Wyott Authorized Service Agency for in-warranty repairs. No mileage or travel charges are allowed on portable units after the first day of use. If the customer wants on-site service, they may receive same by paying the travel and mileage charges. Exceptions to this rule: (1) countertop warmers and cookers, which are covered under the Enhanced Warranty Program, and (2) toasters or rollergrills which have in store service.

Exclusions
The following conditions are not covered by warranty:

*Equipment failure relating to improper installation, improper utility connection or supply and problems due to ventilation.

*Equipment that has not been properly maintained, calibration of controls, adjustments, damage from improper cleaning and water damage to controls.

*Equipment that has not been used in an appropriate manner, or has been subject to misuse or misapplication, neglect, abuse, accident, alteration, negligence, damage during transit, delivery or installation, fire, flood, riot or act of god.

*Equipment that has the model number or serial number removed or altered.

If the equipment has been changed, altered, modified or repaired by other than an Authorized Service Agency during or after the warranty period, then the manufacturer shall not be liable for any damages to any person or to any property, which may result from the use of the equipment thereafter.

This warranty does not cover services performed at overtime or premium labor rates. Should service be required at times which normally involve overtime or premium labor rates, the owner shall be charged for the difference between normal service rates and such premium rates. APW Wyott does not assume any liability for extended delays in replacing or repairing any items beyond its control.

In all cases, the use of other than APW Wyott Authorized OEM Replacement Parts will void this warranty.

This equipment is intended for commercial use only. Warranty is void if equipment is installed in other than commercial application.

Water Quality Requirements
Water supply intended for a unit that has in excess of 3.0 grains of hardness per gallon (GPG) must be treated or softened before being used. Water containing over 3.0 GPG will decrease the efficiency and reduce the operation life of the unit.

Note: Product failure caused by liming or sediment buildup is not covered under warranty.

"THE FOREGOING WARRANTY IS IN LIEU OF ANY AND ALL OTHER WARRANTIES EXPRESSED OR IMPLIED INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSES AND CONSTITUTES THE ENTIRE LIABILITY OF APW WYOTT. IN NO EVENT DOES THE LIMITED WARRANTY EXTEND BEYOND THE TERMS STATED HEREIN."
